Please also be advised that law requires you, as a service provider, to remove or disable access to the infringing materials upon receiving this notice. Under US law a service provider, such as yourself, enjoys immunity from a copyright lawsuit provided that you act with deliberate speed to investigate and rectify ongoing copyright infringement. If service providers do not investigate and remove or disable the infringing material this immunity is lost. Therefore, in order for you to remain immune from a copyright infringement action you will need to investigate and ultimately remove or otherwise disable the infringing material from your servers with all due speed should the direct infringer, your client, not comply immediately.

I am providing this notice in good faith and with the reasonable belief that rights I and / or my company owns are being infringed. Under penalty of perjury I certify that the information contained in the notification is both true and accurate, and I have the authority to act on behalf of the owner of the copyright(s) involved.

Should you wish to discuss this with me please contact me directly.

Thank you.
